

KARTIK GANGWAR

EDUCATION

B.S. COMPUTER SCIENCE & DATA SCIENCE

University of Wisconsin–Madison

May 2028

Madison, WI

- ♦ **Relevant Coursework:** Programming II, Programming III, Linear Algebra & Differential Equations, Intro to Computer Engineering

SKILLS

Python, Java, JavaScript, Typescript, HTML, CSS, TensorFlow, NumPy, BERT, scikit-learn, PyTorch, Machine Learning, Jupyter Notebook, Git, SQL, Firebase, Public Speaking, Team Leadership, Research

EMPLOYMENT HISTORY

PROJECT MANAGER

AI@UW

Mar 2026 – Present

Madison, WI

- ♦ Led development coordination for an AI-powered stock sentiment and prediction dashboard
- ♦ Managed integration across data pipeline, NLP sentiment analysis, prediction modeling, backend APIs, and frontend visualization
- ♦ Coordinated debugging, API alignment, and end-to-end system integration across a multi-member engineering team

CHIEF TECHNOLOGY OFFICER (CTO)

FiPet

Oct 2025 – Present

(Remote) Madison, WI

- ♦ Leading technical development for FiPet, a React Native mobile application with 300+ downloads using TypeScript, Firebase, Firestore, and Cloud Functions
- ♦ Managing Git-based collaboration, feature integration, and iterative development across a small engineering team
- ♦ Implemented backend services, API integrations, real-time workflows, and gamification systems across frontend/backend components

SUMMER INTERN

iStart Valley

Jun 2024 – Oct 2025

Fort Worth, TX

- ♦ Led a team of 5 interns to design and pitch a VR-based mental health startup, conducting product-market fit analysis, market research, and technical prototyping.
- ♦ Promoted to Associate Vice President of the Youth Executive Committee of the Technology Subdivision

ASSISTANT FACILITATOR

STEMshala Enrichment Center

Jun 2023 – Aug 2025

Naperville, IL

- ♦ Taught Python and JavaScript to middle and high school students using project-based lessons with measurable gains in coding skills.
- ♦ Coached FLL robotics teams on sensor integration and autonomous design, improving team problem-solving and competition readiness.

PROJECTS & HONORS

- ♦ **AI Market Sentiment Dashboard** (March 2026 – Present)
 - ♦ Integrated financial text processing, market data, and predictive modeling into a unified full-stack platform
 - ♦ Managed API alignment and debugging across backend, frontend, data pipeline, and ML components
- ♦ **Convolutional Neural Network Image Recognition Project** (July 2024 – Oct 2024)
 - ♦ Built and optimized CNN models in TensorFlow/NumPy to analyze brain cell trauma patterns in veterans.
- ♦ **TrueNeed - Real Time Resource Matching App** (February 2026)
 - ♦ Built a React Native + Firebase app connecting people offering and requesting resources.
 - ♦ Designed a real-time matching system with dynamic database updates
- ♦ Global Semi-finalist at iStartValley's Business Pitch Competition (2024)
- ♦ 4th Place State Finals finish at the Illinois Speech and Debate competition (2025)
- ♦ 3rd Place - UW Madison Product Management Case Competition (2026)
